Huns Continue Flight In Champagne; Allies Close In On Great Coal Town

DOUAI IS SURROUNDED BY THE FRENCH AND BRITISH

English Troops Are Shoving Germans Across the Senece Canal South of the City and Expect to Reach Outskirts Tomorrow. French Are Across Retourn and Pursuing Enemy Toward Rethel.

FRENCH ADVANCE FROM 3 TO 4 MILES

(By United Press)

London, Oct. 12.—12:55 p. m.—The Germans continue their rapid retirement in the Champagne and the French have made additional gains of three to four miles at some points, according to battlefield dispatches received here today.

The British are shoving the Germans across the Senece canal, south of Douai and expect to reach the outskirts of that city by tomorrow.

Paris, Oct. 12.—4:40 p. m.—The French are across the Retourn river in great force and pursuing the fleeing Germans toward Rethel, the important enemy base on the Aisne.

Cavalry and fast automobiles carrying machine guns are hurrying the Germans, who are not expected to show much resistance until they are on the opposite side of the Aisne bend.

The French have passed Quilly, midway between Pauvres and Vouziers.

Douai Practically Surrounded

London, Oct. 12.—The great coal center of Douai is practically surrounded by the allies.

The British continuing their encircling movement, have approached to within less than a mile of the city from the west, Field Marshal Haig reported today.

British troops now occupy Guiney and Hamel, representing an advance of about four miles.

French Enter Vouziers

Paris, Oct. 12.—French troops this morning entered the town of Vouziers on the western edge of the Argonne forest, the war office announced today.

Progress was continued on the whole Champagne front.

The Germans are retreating on the front of 37 miles northeast of Rheims, with French cavalry in close pursuit, the war office announced.

The French have advanced more than 6 miles at some places.

The line of retreat extends north of the Suipe and Arne rivers.

Farther eastward the French are also pushing the Germans back and the allied advance extends along an unbroken front of about 60 miles from northwest of Rheims to the Argonne forest.

Champagne Front Collapses

London, Oct. 12.—Along the Suipe river in the Champagne the German front has collapsed. Progress made by the French indicates that the enemy's retreat is more of a flight than an orderly retirement.

Petain's soldiers are reported to have reached the Retourn river between Houdicourt and Saint-St. Remy. Houdicourt is less than four miles east of Neufchatel, one of the principal German bases on the Champagne front. This advance brings the French within two and

one-half miles of the Aisne river and threatens the railroad line that parallels the stream. Farther east, the French have not advanced so swiftly but have made good progress.

French cavalry has been pursuing the Germans who have fallen back to a depth of approximately eight miles on a front of thirty-seven miles. Indications are that the enemy will not be able to make an extended stand on the Retourn river, which will be flanked on the east by the progress near Vouziers. The retirement in the bend of the Aisne to the north bank of that stream would inevitably be followed by sweeping adjustments to the east and west, which would materially affect the situation about St. Quentin and Cambrai on the other leg of the German salient in France.

Stubborn Fighting on Aire

With the American First Army, Oct. 12.—The most stubborn fighting is under way along the Aire river at Grand Pre and St. Juvin, where the Germans are counter attacking in great force.

To the eastward the American center is progressing better. The Germans are putting up a strong machine gun resistance at Bois de Fort.

The enemy in their desperate struggle to hold back the Americans have thrown their divisions into the fighting without any regard to order and few of them can be identified.

ACCEPTED FOR TRAINING

Sgt. Trappe has returned from Bloomington, Ind., where he successfully passed the mathematical examination and will report about the fifteenth of November to begin his training at Camp Shelby, Miss.

CAPT. KIPLINGER IS SAFE

Cablegram Received From Him—Lt. Blackledge on Same Ship

Mrs. John Kiplinger received a cablegram last night stating that her husband, Captain John Kiplinger of the headquarters company, 139th Field Artillery, has arrived safely overseas. Captain Kiplinger is now with the advance school of fire.

Lieutenant Allen Blackledge of the 139th Field Artillery, sailed on the same transport that Captain Kiplinger did, and will attend liaison school overseas. No official notification of his arrival has been received.

INFLUENZA CASES IN COUNTY NOW TOTAL 165

Nothing Alarming About Large Number Because Reports Are Just Coming in From Physicians

DUE TO STATE BOARD ORDER

Approximately 165 Spanish influenza cases have been officially reported to the city and county health officers, according to statements by Dr. J. B. Kinsinger and Dr. E. I. Wooden today. Very few of these are new cases, because the reports are just beginning to come in as the result of the order of the state board of health instructing all physicians to report cases of the disease to the health officers.

There is no occasion to be alarmed by the number of cases reported, according to health officials, because many of these are patients who have been ill with the disease for some time and are recovering. Thirty-six cases have been reported to the county health officer in the last 24 hours. Only three new cases were reported to the city health officer this morning and two of these were in homes where there were already patients suffering with the disease.

There are approximately 90 cases in the city and 75 outside of the city.

PROBABLY NO LOCAL BOYS ON THE OTRANTO

Although Several Are Enroute to Europe, They Could Not Have Been On Ill-fated Ship

TWO SAILED ABOUT OCTOBER 1

It is not likely that there were any Rush county soldiers on the American troop transport, Otranto, which was sunk in the British channel, between the Scottish and Irish coast, in a collision last Sunday. Although many Rush county men, including most of those who left here with Company B, a year ago last August, are now believed to be enroute to Europe, it is thought they could not have reached the British Isles by last Sunday.

According to information received by relatives here, the division which was in training at Camp Shelby, Miss., for a year and to which the Rush county boys were attached, was probably embarking for overseas service about the time the Otranto was lost. However, two Rush county boys, Messrs. Coons and Robert Co. way, were with an advanced detachment of the division at the time of the sinking.

Milroy Boy Is Killed In Airplane Accident Friday

Raymond Rardin Meets Death in Mishap at Carruthers Field, Texas, According to Message Received by His Parents, Mr. and Mrs. Frank Rardin. No Details Are Received.

HE WAS ENGAGED IN GROUND WORK

BULLETIN

(U. P. Staff Correspondent.)

Fort Worth, Texas, Oct. 12.—Raymond B. Rardin, mechanic of Carruthers flying field near here, is dead today from injuries received yesterday when he was struck by a propeller. Rardin's home was at Milroy, Ind. His body will be sent there for burial.

Raymond Rardin, about 23 years of age, was killed in an airplane accident yesterday afternoon at Carruthers field, near Fort Worth, Texas, according to a telegram received last night by his parents, Mr. and Mrs. Frank Rardin, of Milroy. No details of the accident were received but it is presumed that he went up with an aviator while off duty. He was a mechanic in ground

work and was not a flyer, but according to letters which had been received by his parents, he had occasionally gone up with aviators.

Private Rardin entered the aviation service last winter and got his first instructions on a flying field in Kentucky. During the time he was in training in Kentucky, his feet and hands were frost-bitten and he was in the hospital for several days. He enlisted in the engineers last summer at Fort Harrison but was discharged on account of physical disabilities.

Private Rardin was a natural mechanic and had been engaged in that kind of work before entering the service. His father is a mechanic in a garage in Milroy. Besides his parents, Private Rardin is survived by one sister, Mrs. Glass Darnell of Milroy.

FIGURES WILL BE AVAILABLE MONDAY

No Reports on Liberty Loan Subscriptions Made Today Because Banks Are Closed

HOPE TO GO OVER THE TOP

Bankers Expected to Devote Themselves Today to Raising \$75,000 to Reach Quota

Clearing house reports on the Fourth Liberty Loan subscribers in Rush county were not available today on account of all of the banks being closed, since this was discovery day, a legal holiday.

An "over-the-top" subscription was anticipated by tonight, however, because bankers, when released from their usual duties in the bank, planned to devote themselves today to the selling of bonds and were hopeful of disposing of the remaining \$75,000 which has to be taken before the county reaches its allotment of \$1,100,000.

It will not be definitely known until Monday, whether Rush county has reached its Liberty Loan total for the fourth time because banks were not in the position to make any reports today.

John A. Ross, of Clinton county, chairman of sales for the Fourth Liberty Loan, is publishing daily a list of names of the wealthy men and women of the community who were asked to appear before a county board of review in order that their purchases of bonds might be reviewed and reasons given for their failure to buy all the bonds they means seemed to warrant. Chairman Ross declared that he had been forced to this drastic step because of the persistent failure and refusal of the men and women of means residing in Clinton county to do their duty in the matter of helping finance the war.

300 ON OTRANTO UNACCOUNTED FOR

Estimates Today Place the Number Lost in Sea Collision Between 150 and 300

250 SURVIVORS LAND TODAY

Between 700 and 900 Soldiers Aboard Transport Which Collides With Kashmir

(By United Press.)

London, Oct. 12.—Three hundred are still unaccounted for following the collision of the British steamer Otranto, acting as an American transport, with the steamer Kashmir according to reports received here early today. Estimates placed the number of lost between 150 and 300. Most of the men aboard were civilians.

Two hundred and fifty survivors were brought here today. Three hundred and seventeen soldiers and 150 members of the Otranto's crew were rescued by a British destroyer.

There were between 700 and 900 soldiers aboard the vessel. Heavy seas, high wind and a thick haze formed the setting for the accident.

The Kashmir, a former Peninsular and Oriental liner, crashed into the Otranto squarely amidships. She then backed away badly damaged.

As the bows of the Kashmir were pulled from the great hole in the side of the Otranto, the water rushed in, but for a time it did not serve to stop the engines. The Otranto tried to proceed but made no headway against the gale in her crippled condition.

Within a short time the water put out her fires and the Otranto drifted helplessly toward the rocky coast of Italy, where most of the passengers, victims met their deaths. Thirty minutes after the crash the Otranto had sunk.

QUOTA OF 23 WILL LEAVE HERE OCT. 21

Train Schedule on Camp Wadsworth, S. C. Call Is Received by the Local Army Board Today

SPECIAL TRAIN ON BIG FOUR

Eight Selectives Are Ready to Leave Next Tuesday on Voluntary Induction Calls

The detachment of 23 registrants from this county who will be selected to fill the quota called to Camp Wadsworth, Spartanburg, South Carolina, will entrain at 12:40 p. m. Monday, October 21, over the Big Four railroad, according to a train schedule for the troop movement which was received by the local board today.

This quota will be selected in sequence of order numbers, those remaining in the 1917 class of registrants coming first. It is believed that the balance of the quota can be obtained from the class which registered June 5, 1918. The registrants who will be selected to answer this call will be ordered to report at the clerk's office in the court house, Sunday afternoon, October 20, at 2 o'clock.

Twenty more registrants of the September 12 class were notified by the local board today to report for physical examination next Friday. This is the fifth group of twenty registrants called for examination next week, making 100 all told to be examined.

Frank Tarplee of New Salem passed the physical examination this morning for general military service and was accepted for the voluntary induction call of next Tuesday. Three registrants will entrain for Rolling Prairie, Ind., and five for Warsaw, Ind. All registrants listed for induction on these two calls have been accepted as physically qualified for general military service, with the exception of O. F. Downey, of Arlington, who was to be examined this afternoon. It was expected that he would be held for service and that the two quotas would be ready for entrainment by tonight.

The board's daily report showed 87 more registrants classified yesterday, making a total of 834, and leaving 33 yet to be classified. Thirty-eight of the cases acted upon by the local board yesterday were sent to the district board, making 276 now before that board. Sixteen were returned by the district board yesterday, two of which were denied deferred classes, making 70 cases acted upon by the district board, twenty-six of which have been left in class two. The total number placed in class one by the local board is now 387.

SOME OF 38TH OVERSEAS

Mrs. Emma Wikoff of Indianapolis, has received word that her sons, Ralph and Russell, who are with Company C, 113 engineers have arrived safely overseas. They were with the 38th division at Camp Shelby, Mississippi, and left in September for embarkation. The boys were born and reared in Rush county and lived here until about fifteen years ago, when they moved to Indianapolis. John Rich of Ellettsville is the grandfather.

PERUNA

and MANALIN Cured Me

Mrs. E. M. Harris, R. R. No. 3, Ashland, Wis., sends a message of cheer to the sick:

"After following your advice and using Peruna and Manalin, I was cured of catarrh of the nose, throat and stomach, from which I had suffered for several years. When I commenced taking Peruna I could not make my bed without stopping to rest. Now I

Catarrh of the Nose, Throat and Stomach

do all my work and am in good health. I recommend this valuable remedy to all suffering from any disorder of the stomach.

Peruna is sold everywhere. Liquid or Tablet Form.

Does Your Food Kick Back?

Thousands upon thousands are taking Pepsinco, the marvel of the 20th century, because they could not eat a meal without distress, pain and a disagreeable bloating. Today they are better, able to eat what they want and when they want. They took Pepsinco. Do you feel bad after eating? Take Pepsinco. They will aid digestion. No pain, distress. It's like living life over again when you take Pepsinco. The absence of pain and sourness makes you contented and happy. Mr. E. M. Harris saved his life simply because he did not dare eat things good for him and he was slowly starving to death. Pepsinco helped him. All druggists sell and recommend Pepsinco.

LIVE STOCK CENSUS IS NOT TO BE TAKEN

Because Of Suspension Of Schools In State, The Proposition Is Deferred Indefinitely

IS DUE TO THE INFLUENZA

No effort will be made by the United States food administration, assisted by the public schools, to take a census of the live stock on October 15, for which plans had been made and printed matter prepared and distributed. Because of the suspension of school in many communities of the state, due to the influenza, the entire proposition has been deferred, indefinitely.

Inasmuch as it is intended that the census of live stock is to be uniform throughout the country, and made at the same time, Dr. Harry E. Barnard, federal food administrator for Indiana, who is directing the work in this state, has notified school officials that he desires that the census be deferred until a later announcement. This is in order to prevent a confusion of the matter, by a partial census, and to make certain there will be no obstacles to prevent a successful completion of the figures at a fixed time. The fact that there might be serious commissions, during the next few weeks, owing to the absence of many children from school, is the basis of the thought that the federal authorities may not ask for the census until in November.

CAFETERIA PLAN WORKS SUCCESSFULLY WITH HOGS

Eighty-Nine 109-Pound Shoats Weighing 9,820 Pounds Gain 11,230 Pounds in 69 Days at Cost of \$10.31 a Hundred Pounds, in Demonstration Conducted on Harry McMillin's Farm.

Harry McMillin residing near Gings Station, has recently completed a hog feeding demonstration in co-operation with County Agent Detrick, in which the hogs were fed on a self-feeder by the cafeteria plan.

Eighty-nine 109-pound shoats were put on a self-feeder containing hominy feed meal and tankage in separate compartments. The demonstration lasted 69 days.

The hogs weighed 9,820 pounds at the beginning and 20,050 pounds at the finish. The total gain was 11,230 pounds. The hogs gained 1.53 pounds per day at a cost of 110.31 per hundred pounds, figuring hominy feed meal at \$46.00 per ton and 50% tankage at \$93.00 per ton, which was the net price. It required 411.4 pounds of hominy feed meal and 19.5 pounds of tankage for each hundred pounds of gain. The average daily consumption of feed was 7.53 pounds of hominy feed and .35 of a pound of tankage. One pound of tankage was consumed for each 21.1 pounds of hominy feed.

The hogs had in addition to the feed in the self-feeder the run of a blue grass and timothy pasture which is not included in these figures.

"The self-feeder," says Mr. Detrick, "is not only an efficient producer of pork but a wonderful labor saver."

Other similar demonstrations are being conducted.

BLOW OVER HEART FATAL

Richmond, Ind., Oct. 11.—George E. Gilbert, 65 years old, is dead as the result of a blow over the heart from the crank of a motor truck, which he tried to turn while working with a road crew near here. His body is being held at a local morgue. It is believed his relatives reside either in Cincinnati, O., or York, Ill.

DUREC HOG SELLS FOR \$300 AT TROWBRIDGE SALE

The sixty-nine head of improved high class Duroc hogs sold for an average of \$129 at Charles A. Trowbridge's fourth annual sale at Woodland farm, three quarters of a mile west of Ellettsville, Ind., on Monday. The highest price paid for any one hog was \$400.00 for a black and white male, weighing 160 pounds, sold for \$400.00.

State Veterinary Department Lays Plans To Combat Disease Among Horses, And Mules

VETERINARIANS WILL HELP

Indianapolis, Ind., Oct. 12.—Simultaneously with the campaign against influenza among human beings, the state veterinary department today launched a campaign against influenza among horses and mules.

All deputies of the veterinarian of the state have been asked to co-operate in the movement. All barns and stock yards will be disinfected and kept in a sanitary condition.

"Influenza among horses and mules causes a big loss to the state every year," said Dr. L. E. Northrup, state veterinarian today. "From experience we know that this disease cannot only be controlled but that it can be eradicated."

A farm to farm canvas is being made by our deputies to locate any case of influenza which may exist. The most trouble has been in the northwest part of the state where army horses are being shipped through.

MAY BE MISSING OR KILLED

Report Received Concerning Cecil Sniff, Formerly Of Rushville

Cecil Sniff, son of the Rev. W. W. Sniff, at one time pastor of the Main Street Christian church, is believed to be either missing in action or to have been killed in action in France, according to word received by friends here. Young Sniff's parents have received from him a letter which he wrote before going into action and which was to be mailed only in case his being killed or missing in action. His parents still hold out hope, however, because they have had no official word from the government. Mrs. Sniff suffered a severe shock and is now in the hospital. The Rev. and Mrs. Sniff live at Newcastle, Penn.

THEY HOOVERIZE IN THE ARMY NOWADAYS

(By United Press.)
With The American Army In France, Sept. 10. (By Mail.)—The boys over here are not going to let the folks back home excel in this game of Hooverizing.

The boys have been getting letters from the folks in U. S. A. telling about food saving. Some mothers and fathers and sisters and brothers were going without things they wanted, that the fighters might have more.

To show its appreciation of economy back home, the army has begun a similar campaign to "save grub" as they call it in the ranks.

The campaign is one of saving without denial. Men cannot stand the strain over here if they are denied enough food. But they can save without being stingy.

There are several ways of going at "saving grub" in the army.

One is to avoid over-helpings at the camp kitchen or the mess. The cook in the army are good, scouts and proud of their creations, and when a doughboy shoves up his plate for a meal, the tendency is for the cook to get enthusiastic and dish out more than any normal man can eat. They are much more careful about helpings now than formerly, and if a man's belt is not tight after his first plate of "chow" he may go back for more.

They're utilizing surplus fat in all meats for cooking grease, instead of just frying it away into smoke.

Crusts and dried bread will make good material for various dishes—probably there'll be more puddings than usual in the army now. It won't make the doughboys mad.

The American army has better "chow" than any other in the army now, and the men in it realize that they are under obligations to the rest of the allies to economize on the food.

The girls in the army are famous for their economy. They are first in the army in saving. They are under obligations to the rest of the allies to economize on the food.

COMMON SPREADER SENSE

We are wondering if the readers of this paper realize that intelligent, reasonable common sense can be talked as well through the columns of a newspaper as in a personal interview. We want to appeal to your judgment and your intelligent "horse sense."

We want to emphasize the idea that the manufacturers of the Rushville Special spreader are not simply embodying one or two talking points but include more than three times as many worth while exclusive features in this machine as can be found in any other spreader now manufactured.

You may think we are over enthusiastic with regard to this manure spreader, but we are ready to prove that EVERY STATEMENT is backed by results that we can demonstrate very quickly if given a chance.

With very little explaining, most men readily understand why the long and short teeth in the Bull Dog Beater are draft reducers. Only a brief examination is necessary to understand why the expansion chambers in our NO CHOKE BOX are of great advantage in distribution. The Litchfield SELF CLEANING conveyor used on this spreader is the only successful endless conveyor on the market.

The SELF OILING JOURNAL BEARINGS used on this spreader are years ahead of the bearings used on other machines. They are built like a freight car bearing and will stand more abuse than any other device.

Space does not permit us to mention more of these features, but if you will call on us we can certainly show you that the sensible thing for you to do is to buy a Rushville Special manure spreader. We hope to have the opportunity of explaining the machine to you.

C. H. Tompkins

RUSHVILLE, INDIANA

Personal Points

—Richard Bryant of Shelbyville transacted business here yesterday.

—Mrs. Rebecca Weed of Elwood, is visiting her sister, Miss Mary Barringer at her home west of the city.

—Mrs. Elmer Darnell, Mrs. John Darnell and children, Louise and Doris, motored to Indianapolis today.

—Miss Goldie Cheek of this city left yesterday afternoon for a visit with her grandmother, Mrs. Rebecca Lockridge of Greensburg.

—Daniel Crandal Green of Oklahoma City, Oklahoma, has arrived for a visit with relatives here. Mrs. Green has been here with her parents, Dr. and Mrs. J. C. Sexton, for several weeks.

—The Misses Carolyn Meredith and Helen Pierson, are the guests of and Mrs. L. G. Hall, living near Raleigh.

—Mrs. Warder Wyatt has returned to her home here after making an extended visit with friends in Lexington, Ky.

—Mrs. Chester Derringer, south-west of this city, was the guest of her parents, Mr. and Mrs. Ethrian Wood of Arlington, today.

—Mrs. Emma Wikoff of Indianapolis, has returned to her home after an extended visit with her father, John Rich, living near Falmouth.

—Joseph Dickman, who is doing government work in Bradford Junction, Ohio, will be the guest of his wife and children for the week-end.

—Miss Etta Crippen of Greensburg spent a few hours in this city this morning while enroute to Connersville, where she will be the guest of friends.

—Mr. and Mrs. Henry Rhodes and daughter of Falmouth, are spending the day in this city.

—Mr. and Mrs. Bert Reed and daughter Dorothy, and Mr. and Mrs. H. G. Reed, are visiting Mr. and Mrs. George Reed in Action, Ind., today.

—Mr. and Mrs. Hal Pike, Miss Laura Meredith and John Meredith and daughter Beulah, attended the funeral services of Mrs. Ida Pike in Lewisville, yesterday.

—Miss Harriet Vredenburg, who is taking nurses training at St. Vincent's hospital in Indianapolis, came home last night and is sick at her home in North Jackson street.

—William Kelso has returned from Crawfordsville where he went to enter the Students Army Training Corps at Wabash college. He was rejected on account of physical unfitness.

—Mrs. J. D. Case and Mrs. Joe Amos have returned from St. Louis, Mo., where they went to attend the national convention of Christian church. The convention was called off because of the Spanish influenza epidemic.

—Mrs. Chauncey Duncan has returned to her home after spending several days as the guest of Mr. and Mrs. J. Hooker Wilson of Knights-town. Mr. and Mrs. Claude Cambern and Chauncey Duncan were the guests yesterday and Mrs. Duncan accompanied them home.

MERCHANTS ASKED TO DESTROY CARDS

One Sent Out by Food Administration Regarded as a Desecration of the Flag

HUGH MAUZY GETS A LETTER

Hugh Maury, who is deputy merchant representative of the United States food administration in Rushville, is in receipt of a communication requesting all merchants to destroy a windy display card which was distributed some time ago and which seems to have given the impression of desecrating the flag.

Mr. Maury does not recall having distributed any of the cards under ban in Rushville, but in case any have reached Rushville merchants through other channels, it is urged that the request, which is contained in the following letter, be complied with:

"Because of the growing criticism directed to the display card issued some months ago, entitled Corn is the Fighting Ration, on which an ear of corn and the flag were shown in the same perspective, and in view of the act of congress of Feb. 8, 1917, that prohibits the placing of any word, figure, etc., on the flag of the United States, the education division requests that all these cards if any remain in existence, be destroyed."

RICHMOND BOY ON BOARD
Richmond, Ind., Oct. 12.—John VanHorn, 13 years old, grandson of John White, city councilman, was a member of the crew of the Ticonderoga, sunk by a German submarine.

WATER BILLS PAST DUE

City water bills are past due, according to City Treasurer George Helm, who urges that delinquents pay their accounts at once. Bills for the last quarter became due October 10.

Days Pickings

Lon Kennedy is ill at his home in North Perkins street with the influenza.

Mrs. J. H. Scholl is ill at her home in North Jackson street with influenza.

The case of Zimmer and Alexander who were formerly in the auto sales business here together, against Thomas H. Stout, on a note, has been dismissed in the circuit court and the costs paid.

Cecil Tague, formerly of this city, and Brookville, who is in an officers training camp at Camp Grant, Rockford, Ill., has recovered from an attack of Spanish influenza, according to word received by his parents. Mr. and Mrs. Marion Tague of Anderson township.

Students of the Rushville high school, who belong to the Literary Digest club, and want their October number should call at the Graham building Monday morning between the hours of nine and ten. Miss Madden will hand the magazines out the office window in order to conform with the ruling of the state board of health regarding public gatherings.

Miss Mary W. Hilligoss, daughter of Mr. and Mrs. Lauren Hilligoss of Shelbyville, died at Penn Hall Girls' school Friday morning at Chambersburg, Pa., with pneumonia. Miss Hilligoss was nineteen years of age and was one of the most popular girls in Shelbyville and had a number of relatives and friends in this city and county.

DECREASE IN THE CASUALTY LIST TODAY

Total Report From Overseas 672, of Which 25 Were Killed in Action

THREE HOOSIERS ARE LISTED

Washington, Oct. 12.—Only three Indians were included in today's casualty list of six hundred and seventy-two names from the commanding general of American forces in France.

The casualties for Indiana were divided as follows: died of disease—Hobart S. Bailey, Lawrenceburg; died from wounds received in action—Glen G. Wagner, Richmond; wounded severely—Sherman W. Agan, Hardinsburg.

The total casualty list was divided as follows: killed in action, 125; missing in action, 28; wounded severely in action, 267; died of wounds, 101; died of disease, 107; died of accident and other causes, 14; died of airplane accident, 3.

Family Washings

Send us your Family Washing, and save your Coal and Gas Bills. We have plenty of Soft Water and Coal, and can save you money, time and labor. **Held To Guaranteed Price**

Indiana farmers are urged not to become "panicky" because of the refusal of dealers to buy their wheat. Unusual circumstances have served to check the international movement of wheat, the United States food administration announced today, and consequently many farmers have accepted less than the guaranteed price.

Dr. Harry E. Barnard, federal food administrator for Indiana has announced that enlarged demands from General Pershing for material, resulting from the progress of the American and allied forces on the western front, in France, has necessitated the temporary withdrawal of many ships from the grain carrying trade. This has caused a corresponding curtailment of shipments from interior points, and has filled the seaboard warehouses and terminal elevators, checking the entire grain movement.

"There is no occasion for farmers accepting less than the guaranteed price of wheat," Dr. Barnard says.

Barrage**The Golden Rule**

The "Golden Rule" is still in force—
Humanity's ideal.
But we must all fight hard, of course
To make it very real.
So long as German war lords reign
With "Iron Hand and Sword,"
The "Golden Rule" is in disdain
Or bundled overboard!

The "Iron Rule" of savage man
Contents for mastery.
Who triumphs?—Christ or Caliban?
Look at the map and see!

drawing to an end? It does not. It only means that the German forces are being drawn in upon a compact front, where a few men can hold a large army at bay. Just so a checker man in the corner of the board can "stand off" all the opposing pieces indefinitely, or one thug in the corner of the wall can resist the whole police force until a bullet puts him down. The Bulgarian capitulation means that America must throw overwhelming force on the narrower German lines along the line of the frontier.

Buying Liberty bonds is more necessary than it was before.

The Time For Apples.

Before the war one sixth of our total apple crop found its way to England, Germany and Scandinavia. Even now, when tonnage to Europe is so precious, doctors and food experts consider the dietetic value of the apple so important that an occasional hundred car loads is shipped overseas to the hospitals and convalescent homes where the Allied soldiers and our boys are recuperating.

But there is no steady foreign market for apples at present and we may therefore expect a large home supply. Because transportation in this country is under such strain, however, it is possible that those who do not live in apple growing regions will not benefit from this unusually large home supply.

This places increased responsibilities on those who can obtain apples easily to see that none are wasted. Use them freely. It would be hard to find a more wholesome food. Eat them in their natural state and cooked. Make them into jellies, apple butters and jams. Save the windfalls by cutting out the bruised part and drying the rest. Another way to save apples that cannot be kept for winter is to make them into apple sauce and can it.

The People Must Help

It will not avail if the merchants alone undertake to put over the same Christmas shopping plan. The approval and support of the buying public is the first essential. That is why the State Council of Defense is urging that Christmas buying begin in October and be finished before the first of December. Otherwise it will be necessary either for a limited force of clerks to work themselves down, or to turn away much of the business to which the merchant is justly entitled. That is why, too, the federal government is interested—to save manpower and womanpower usually thoughtlessly and heartlessly wasted by eleventh hour shoppers. Late shoppers, too, are unable to secure satisfactory service when they mail or express Christmas gifts. They should do this early, if they honestly want to help Uncle Sam solve his transportation difficulties. Incidentally no genuinely patriotic Christmas giver wants to squeeze the beauty and pleasure out of Christmas spirit by trying to break the established rules of war time merchandizing which restricts deliveries and frowns on approval orders.

The Red Cross purchases four and one-half tons of chewing gum monthly for the American soldiers in France. The power used in chewing this gum would probably be quite sufficient to run a train of cars. But as there is no way to divert it to such a purpose, our boys may continue to chew.

You didn't forget to subscribe for those liberty bonds? No? That is right.

Capital's Lease On Life

In some New England saloons Liberty bonds of the earlier issue have been sold in 100,000 lots for \$2,000,000. The bonds are sold in 100,000 lots for \$2,000,000. The bonds are sold in 100,000 lots for \$2,000,000.

the money for a short spree, have sold the certificates at a give-away price. When resold in \$10,000 lots the bonds are obviously finding their way into the hands of capitalists.

Again. There are munition manufacturers who find trouble in keeping their help because their factories have not enough parking space for the laborers' automobiles. Which indicates that too many workers are handing their wages to auto builders.

The tendency of wealth to get into the hands of a minority seems inevitable. It would be illuminating to hear the majority classify their reasons for putting it there.

**AN APPEAL FOR
PLATINUM MADE**

Rushville Banks Will Forward Metal
to Assay Office if There is
Any Here to Sell

NEEDED TO MAKE MUNITIONS

Treasury Department Appeals to
Patriotism of People—Ar-
rangements For Forwarding

In response to an appeal from the United States treasury department, Rushville banks will act as receiving and transmitting stations for platinum. A request has been received here from the controller of the currency that the banks act in this capacity and do their share in the nation wide campaign to collect every ounce of platinum in the country and make it promptly available to the war department for the manufacture of munitions. The communication from the treasury department says that the successful prosecution of the war demands this.

The banks are asked only to receive packages of platinum if there be any available in Rush county, and inscribe upon the package the name and address of the depositor and the depositor's statement as to contents and the assay office has determined its value, by the ordinance department of the army by check to be sent direct to the depositor.

The banks are requested to send all the deposits they receive of such character and the assay office send the proper receipts for each package showing the gross weight of each deposit. The banks are expecting in a few days to receive a circular from the war industry board which will show the prices which will be paid per gram and per ounce for the metal deposited, together with a statement of the treatment and charges to be made by the assay office, both of which may be expected by the banks for the information of prospective depositors of the metal.

Banks acting as receiver and transmitters for platinum will not guarantee the contents but will give a receipt to the effect that a package sent and weighing a given number of ounces, is said to contain platinum, which at the expense and risk of the owner, will be sent to the assay office in New York for selling to the government and that a check for its value is to be forwarded to the owner direct by the war department when the report from the assay office has been received by the war department.

Those who have platinum and are in a position to sell it to the government will be informed that all packages will be forwarded by registered mail unless the owner wishes to have it sent by express, and that they will be insured at such value as the owner may request, the owner paying the expense of the shipment.

Bottomless metal shovels and a little corn will provide a substantial dinner for the battle weary troops.

To the Central Powers

President Wilson has replied with his note. Have you replied with your Bond subscription? If not, back him at once with a liberal purchase. Remember that the Fourth Loan is going slowly all over the Nation. Are you to blame?

Farmers Trust Company

**OUR BOYS GARNER HUN
HOUNDS AND HELMETS**

By FRED S. FERGUSON
(U. P. Staff Correspondent.)

With The American Army In France, Sept. 16. (By Mail.)—The American army is gradually being populated with boche dogs.

At the same time the United States soon will be thickly populated with boche helmets.

The fighting American is just as earnest in his souvenir hunting as the peaceful American. Practically every doughboy, therefore—whether from town or country—made it a point to pick up a boche helmet somewhere during his advance from the Marne to the Vesle. The German soldiers cast aside the heavy helmets in their retreat, and they were scattered broadcast over the Marne valley, on and across the Ourcq to the Vesle. By pasting the address on the hat together with 40 cents postage, the American fighting man can send his sweetheart or mother a souvenir direct from the battlefield. And all of them have done it or are doing it.

About the dogs. The boche left them behind, just as he did the helmets. When the Americans entered Bouvardes, Serget, Cierges, and various other towns, they found the boche dogs lurking about in the cellars and dugouts their late masters had been driven from. A dog can't help being boche, so the doughboys don't hold against him the fact that he is one. The deserted dogs were fed. They quickly made friends with the Americans and were adopted by various companies. The dogs now are just as good democrats as they were autocrats. Each bears some sort of German name. A chaplain has a little black dachshund he calls "Minnie". The after part of her name is "Werfer."

AUTHORITY IS NOT QUESTIONED

No One Doubts The Right Of County Food Administrator To Enforce Regulations

FOR DISTRIBUTION OF FOOD

Two Reasons By Dr. Harry E. Barnard, State Food Administrator, To Explain This

Indianapolis, Oct. 11.—No serious question has been raised in Indiana as to the authority of the county food administrators to enforce the regulations that have been promulgated for the conservation and equitable distribution of food. Two reasons are advanced in explanation of this fact, by Dr. Harry E. Barnard, federal food administrator for Indiana. The first is that there has not been any deliberate or willful violation of rules that warranted refer-

ence to the courts. The second is that the federal food administrators of Indiana counties have understood that their duties have been regulatory rather than punitive. However, it has been pointed out in numerous instances that the food control law does provide adequate punishment for the specific offense of hoarding, and gives the courts the right to assess a fine up to \$5,000 and to add a prison sentence up to two years. It has been the policy of the food administration, as laid down by the Enforcement division, at Washington, to accept voluntary offerings in cases where the infractions of the regulations have been of a minor character and cash penalties have been accepted in behalf of war benevolences. In no instance has there been an enforced collection of a "fine" with the approval of the state or federal food administrations, for the reason that such acceptance was construed as inconsistent with the democratic nature of the work. Upon the success of this policy, it was held the means of saving the immense sums of money that might be necessary for enforced rationing and policing of the regulations.

The case of the first criminal prosecution under the federal food law, which has come to the attention of the food administration in Indiana, is the case of the United States vs. the Germania Catering Company and Rudolph Oelsner. The decision was in favor of the government, and the maximum penalty of \$5,000 fine was imposed. The cafe formerly known as the Kaiserhof, now the Cafe New York, was the chief offender.

In submitting the case to Judge Martin T. Manton, and a jury, the district attorney showed that in April 1917 the defendant bought 10,000 pounds of sugar for the Germania Catering company and several thousand pounds additional for the German Restaurant company. The defendant Oelsner who controlled the catering and restaurant firms stored this sugar in his warehouse in New York. Some of it he sold to friends, and remainder he held. In his defense he asserted that he anticipated a sugar shortage and held this in store for use in his eating houses. The district attorney proved that the amount of sugar on hand was sufficient for 450 days, which it was argued was more than the "reasonable requirements" of the business, the maximum permitted under the food control law, on April 30th, 1918. Proof was offered of the amount of sugar used and of the sufficiency of the two lumps per meal, fixed by the food administration. The defense admitted the figures, but questioned the law its interpretation as applied to the facts. Judge Manton instructed the jury that "the regulations and rules of the Food Administration must be complied with by the people of the United States." He read the president's proclamation and cited numerous references and precedents in support of it. The district attorney, upon agreement with the attorneys for the defendants, agreed to accept a finding of guilty and dismiss the charge against Oelsner, in whose favor mitigating circumstances were offered.

The full record of the case is in the hands of the State administrator for reference, should there be any occasion to resort to the courts to sustain the enforcement of the official regulations in Indiana, an exigency which Dr. Barnard says he hopes to avoid in the future as he has in the past.

SPANISH INFLUENZA—WHAT IT IS AND HOW IT SHOULD BE TREATED

Nothing New—Simply The Old Grip, or la Grippe That Was Epidemic in 1889-90. Only Then It Came From Russia by Way of France and This Time by Way of Spain.

Go To Bed and Stay Quiet—Take a Laxative—Eat Plenty of Nourishing Food—Keep up Your Strength—Nature Is The Only "Cure."

ALWAYS CALL A DOCTOR

NO OCCASION FOR PANIC

Spanish influenza, which appeared in Spain in May, has all the appearance of grip or la grippe, which has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

There is no occasion for panic—influenza itself has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally, patients in a run-down condition—those who don't go to bed soon enough, or those who get up too early.

THE SYMPTOMS
Grippe, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages, nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

THE TREATMENT
Go to bed at the first symptoms, not only for your own sake but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, aspirin or Dovers' Powder, etc., may be administered by the physician's directions to relieve the aching. But there is no cure or specific for influenza—the disease must run its course. Nature herself will throw off the attack if only you keep up your strength. The chief danger lies in the complications which may arise. Influenza so weakens the bodily resistance that there is danger of pneumonia or bronchitis developing, and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has subsided.

or more, according to the severity of the attack.

EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grippe germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the parts until the skin is red, spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food. Above all, keep free from colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea kettle. Fill half full of boiling water, put in half teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine in salve form, Menthol and Camphor with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors.

VapoRub is comparatively new in New York State and New England and a few western states where it is just now being introduced, but in other sections of the country it is the standard remedy used by more than a million homes for all forms of colds, coughs, croup, etc. It is particularly recommended for children's croup or colds, since it is externally applied and therefore cannot be absorbed into the system. It is also recommended for the relief of the most distressing colds, and for the relief of the most distressing colds, and for the relief of the most distressing colds.

SIX MOTORISTS ARE HELD AT KNIGHTSTOWN

Indianapolis Men Are Under Arrest, Accused of Theft, Following an Accident

MOTORCYCLE IS RECOVERED

Six Indianapolis men are under arrest at Knightstown as a result of an automobile wreck. The automobile is believed to have been stolen and, according to Knightstown authorities, belongs to William Straus of Indianapolis. The Indianapolis police believe that the car is the property of the Williams Auto Company as William Springer, of Indianapolis, who is under arrest, is a driver for the company. The other men arrested are Joseph Mack, Russell Arnett, Ed Wiseman, William Johnson and Fred Derisi, all of Indianapolis.

Johnson's leg was broken and Derisi was slightly injured in the accident. A motorcycle, also believed to have been stolen, was found in the automobile.

LINEN FOR HOSPITALS TO BE SHIPPED MONDAY

Rush County Subscriptions to Red Cross Appeal Fail to Come up to Expectations

SMALL TOWNS DO THEIR SHARE

Although Rush county's contribution of linen pieces and other articles to the Red Cross for use in the hospitals in France, did not come up to expectations, there is a good sized collection which will be packed and shipped Monday. All of the articles were sent to the laundry and were returned today ready for shipment. The Red Cross could have packed and sent the shipment today but held it open one more day because of requests from Milroy and Raleigh, where there are some more pieces to be contributed.

Rush county contributions in response to this latest appeal from the Red Cross, would not have been as large as it is had it not been for the hearty support from the outside townships and from towns in the county. The contributions from Rushville did not near meet expectations and were a decided disappointment.

TO GET SOLDIERS' BALLOTS

Luther J. Downey Goes to Indianapolis—County Asks For 400

Luther J. Downey, court bailiff, went to Indianapolis today to get the soldiers' ballots which will be mailed to Rush county men in the service in this country, so that they may vote at the election November 5 under the terms of the Indiana absent voters law. The county made a request for 400 soldiers' ballots. Mr. Downey went to Indianapolis for George B. Moore, Jr., clerk of the election commissioners, who is busy attending to his duties as member of the county army selection board.

PIGEONS CARRY UP

Nearly 1,000 messages carried by pigeons have passed through headquarters of the naval pigeon service. A British seaplane sent the following message in duplicate by two pigeons at 7:24 a. m. one day: "Am down off—Rough sea."

Both pigeons brought the message in at 8 a. m. and by 8:30 a. m. a vessel had been sent to the plane's assistance.

On another occasion the crew of a flying boat found itself in difficulties at sea and sent a pigeon with an appeal for help. There was a strong head-wind against which the bird had to battle. He fought his way homeward until he had crossed the coastline; but his exertions proved too much for him, and he fell dead within a few miles of home. The message was delivered, however, and the crew of the flying boat was saved. Naval statistics show pigeons succeed in delivering 95 per cent of messages entrusted to them.

YANKS ARE WINNING FRENCH TOTS' HEARTS

(By United Press.)

With The American Army In France, Aug. 22. (By Mail.)—At least one generation of French men and women will idolize Americans.

American soldiers have won their way into the hearts of children of France everywhere in the army zone. The American loves children, as can be seen in any village where U. S. troops are stationed. One never passes through villages without seeing soldiers on repose playing with French youngsters. The children crowd around the first Yankee they

see to "roughhouse" and play ball. These are two forms of sport the French youngsters had not known. French youngsters do not like exercise that musses them up, and hence, "rough-housing" with the "kids" was unknown until the Americans arrived. French kiddies take to it like ducks to water, and an American is a popular article because he will let youngsters clamber all over him, and play.

The Yankees like it, too, for it seems a bit like home. They have taken it as a duty to teach French youngsters to play ball, and in every village in the evening one sees dozens of games of catch going on, usually a Yankee playing with French boys and girls.

Incidentally, while the Yankees are Americanizing the coming generation of France, they are winning the hearts of mothers in France, who can hardly understand how and why the Americans will bother themselves to notice little folk. It is a Yankee characteristic which wins France.

We Have Been Drafted

No, not drafted into the army, but our services have been drafted by the housewives of Rushville

Into This Army

This vast army of busy housewives who toil and drudge over the fall house cleaning, are recognizing the service that we offer. Send us the carpets, rugs, draperies—have us dry clean them. Our process will eliminate the dirt and dust and leave the rug like new. The sizing will not be removed, and it will not have the look and feeling of a hard beating.

Don't Be a Slacker!

And have your rugs and carpets all beaten out of shape. Phone us today and have us talk over one scientific way of doing it. We are always glad and ready to answer questions. Don't wait until the big rush starts, but get in line now.

Phone 1154
XXth CENTURY CLEANERS & PRESSERS
"Karpis' Kleaned Kleaner"

Mr. and Mrs. Ray Lakin, were gracious host and hostess last evening for a prettily appointed six o'clock dinner party given in honor of Mr. and Mrs. Frank Compton of Oklahoma City, who left this morning for their home. Mrs. Compton was formerly Miss Venus Lowden of this city. The rooms were artistically arranged with fall flowers of varied hues and a bouquet of brightly colored asters formed a centerpiece for the table. The guests for the occasion were Mrs. Ed Barratt and Mrs. Olive Matheis of Indianapolis.

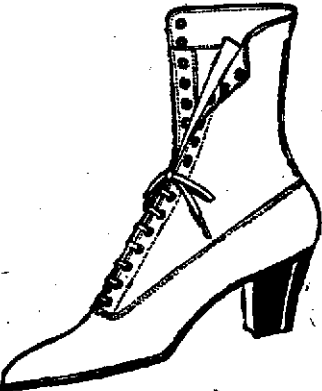

A Woman's Hearty Recommendation.

Worry and overwork cause kidney trouble, and women suffer equally with men. Miss Sara Weston, Belvidere, Ill., writes: "I could not stoop down and when I was down I had to crawl up by a chair. I was so lame I suffered agony. Now I feel like a new person, strong and better in every way. My general health is quite improved. I heartily recommend Foley Kidney Pills to all suffering the way I did." They relieve dizziness, puffiness under eyes, sore muscles and joints and rheumatic pains when caused by disordered kidneys. F. B. Johnson.—Adv.

FINES FOR THE DEFENDANT

Judge Sparks Rules in Case of Priscilla Against Robert Cameron

Judge Sparks has entered a finding and judgment in the circuit court in the case of Priscilla Cameron against Robert Cameron, with the costs assessed against the plaintiff. Mrs. Cameron was granted a divorce from Mr. Cameron several months ago and later filed an action in which she alleged that Mr. Cameron was not complying with the decree of the court in regard to the payment of support money. The hearing on this action was held September 7 and taken under advisement by Judge Sparks until this time.

GERMAN REPLY TO WILSON DRAFTED

Answer to American Note of Inquiry is Handed to Swiss Minister in Berlin Today

MEETS DEMANDS, PAPER SAYS

Others Say Far Reaching Advances Are Made—Austria and Turkey Are Ready

(By United Press.)
Basil, Switzerland, Oct. 12.—Germany's reply to President Wilson was presented to the Swiss minister this morning, it was stated in a dispatch received here today.

Some German papers referred to the reply as meeting his demands fully. Others say only far reaching advances are made.

London, Oct. 12.—Austria-Hungary and Turkey are expected immediately to announce acceptance of President Wilson's armistice terms, according to an Exchange Telegraph dispatch from Berlin, received via Amsterdam.

Copenhagen, Oct. 12.—The North German Zeitung says that the German answer to President Wilson's note of inquiry is ready and believes that it was handed to the Swiss government today.

The newspaper understands that the answer will make far-reaching advances, and it is hoped that the discussion between Germany and President Wilson, which has been completed in principle, probably was forwarded on Friday night. The Gazette says it has reason to believe that the answer expresses adhesion of Germany to the demands of President Wilson.

With the exception of the intractably Chauvinistic Tages Zeitung of Berlin, the German press generally, even the conservative organs, see in President Wilson's note an upright desire to judge the situation objectively and pave the way for peace, if honorable peace shall appear possible.

The Tages Zeitung, finds the note "utterly unacceptable" and hopes the German government "will give a fitting answer." It is, however, significantly symptomatic of the new order of affairs in Germany that the newspaper stands virtually isolated in its antipathy to peace.

Even Otto Hoetsch, in the Kreuz Zeitung, and Professor Max Lenz, in the Taegische Rundschau, recognize the seriousness of the situation. The latter says: "We will not obstruct those who have taken the rudder, but will rather help them bear their terrible burden of responsibility. Let there be no more imputations and recriminations."

PROBABLY NO LOCAL BOYS ON THE OTRANTO

Continued from Page One
achment of officers and non-commissioned officers from the division, which probably embarked about October 1. Letters dated September 30, in which the boys said goodbye, have been received here, indicating that they were ready to leave at that time. It is doubted though whether this party could have been at the point where the Otranto was sunk within five days after sailing.

MARSHALL INNIS FOUND

Marshall Innis, formerly of Milroy, is fighting somewhere along the west front, according to a letter received by Mrs. Will Hilligoss from her husband, who met him in France September 2. Relatives and friends of Innis were alarmed because they had no word from him and the war department was unable to locate him.

KILLED BY INTERURBAN

Greentown, Ind. Oct. 12.—Henry Steple of Amboy was killed here yesterday afternoon when an ice truck in which he was riding was struck by an interurban car. Ray Kelly, driver, and Gail Snyder, both of Amboy, escaped injury.

Yearly fall savings have come with independent teeth are a sign of civilization.

UNACCOUNTED FOR

Continued from Page One
Monsey, herself damaged by the heavy seas, appeared out of the haze in answer to the distress calls of the Otranto. When the destroyer maneuvered to get alongside, Captain Davidson, of the Otranto, warned Lieutenant Craven, commander of the destroyer, not to make the attempt.

When it was seen that Craven would make the attempt anyway, the men were ordered to remove their shoes and heavy clothing and try to save themselves as best they could.

The destroyer stood off about 100 feet and then gradually came nearer, against the great odds of high waves and the wind, which threatened momentarily to carry her entirely away from the Otranto or dash her to pieces against the side of the wounded vessel.

As the destroyer neared the side of the Otranto the men began to jump from thirty to forty feet from her decks. The more experienced sailors of the crew of the steamer had better success than the soldiers, many of whom had never seen the sea until this trip.

As the destroyer steered toward the side of the steamer many of the men leaped too quickly and missed their reckoning and dropped between the boats. Some of these disappeared in the water, but others of them were caught and crushed to death between the boats and the lifeboats, which had been lowered to act as buffers. The destroyer was badly battered.

The captain of the destroyer each time it was brushed away from the side of the Otranto, again would push near enough for many more men to jump to the deck of his vessel. He described as a veritable rain, the number of men landing on the destroyer.

Many of those who reached the decks of the vessel suffered broken bones or otherwise were hurt. Those who missed the deck of the destroyer went to almost instant death.

Four times the battered destroyer came alongside, and each time the previous scenes were repeated.

The survivors saw the Otranto drifting helplessly toward the rocks as they pulled away toward the Irish coast. The destroyer barely had time to send a brief message when her wireless was carried away. The little overloaded vessel had a rough trip to port.

Four-fifths of the world's halibut supply is captured in the Pacific coast waters.

Suggests Scripture Readings For The Congregation Sunday

In view of the fact that there will be no public religious worship in Rushville tomorrow, Dr. De-ira Lambert, pastor of the First Presbyterian church, has suggested the following Bible readings during the hours of accustomed worship:

7 a. m., "Quiet Hour," Psalm 3, hymn, "Awake My Soul in Joyful Days," special prayer for the nations and soldiers; 9:30—study of the regular Bible school lesson, for the men's class, 1st Sam., 17, "A Patriot of the Old School"; 10:30, Bible reading, "Our God in Time of Need"—"Jehovah Our Hope," Psalm 42, 43; "Jehovah Our Refuge," Psalm 46; "Jehovah Our Deliverer," Psalm 120, 121; "Jehovah Our Comfort," Isaiah 40, 43; "Jehovah Our Joy," Isaiah 12; "Jehovah Our Super-Victory," Romans 8; "Jehovah Our Guide," Psalm 23; Hymn—"How Firm a Foundation, Ye Saints of the Lord," 7:30 p. m., "The Abiding Fellowship of Christ," John 14, Hymn, "Abide With Me," 9:30 p. m., "David's Evening Prayer," Psalm 4.

COAL PRODUCTION RECORD

Washington, Oct. 12.—Coal production in the United States during the past month has beaten all records in the country's history, the fuel administration announced today.

"OUR STANDBY"

Ohio Lady Tells How Black-Draught Liver Medicine Keeps Her Family in Good Health.

Hillsboro, Ohio.—Mrs. Myrtle Jenkins, of this address, says: "I cannot say too much for the benefit me and my whole family have derived from the use of Black-Draught. It is our standby and as we often say 'our doctor bill saver.' If one of the children begin to complain of head or stomach ache or any of the signs that go with a torpid liver, or constipation, I give them a good dose of Black-Draught and they most always get right."

I often feel out of sorts and get a bad taste in the mouth, then I take a good dose.

I at one time had a case of chronic constipation and was nervous and run down on account of it. Also had awful headaches. I would take pills and other medicines that would gripe me and then I would be more constipated than ever. This is how I first began the use of Black-Draught, first in full doses, then in small doses, and was cured.

My children get a cold and I have never found a better laxative. I cannot say too much for what Black-Draught has done for us."

Theodore's Black-Draught should be in your medicine chest. Get a package today. All druggists. 25 cents a package. One cent a dose. NCB-12

The War is Not Yet Over. We Will Fight Until It Is Won

When America goes to War, she goes to WAR TO WIN—and we are going to WIN THIS WAR if it takes every Man and every Dollar that we have—but don't make the mistake of thinking that the War is already won to a finality.

The Prussian Beast is torn, tired, and bleeding, but we must not call the war won, until the Prussian Beast has finally surrendered and has fully and completely accepted the entire Fourteen Points as laid down by President Wilson in his speech of January 8th.

Our boys are fighting and they will continue to fight until the final victory is won for humanity and liberty.

But we must do all that we can to help our boys—and it is up to you and to us to help—we must not fail them.

LET US ALL LEND THE WAY THEY FIGHT

An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the City to have it Re-bored.

Having recently installed in our shop a new machine for re-boring Ford motors we wish to call your attention to the fact that we are now prepared to re-bore and fit new over-size pistons and rings in your Ford motor.

These are the results you obtain by re-boring

You increase power from 10 to 50 per cent.
You eliminate that elusive knock.
You stop the escaping gas around piston-rings which abnormally heats the crank case.
You stop the admission of auxiliary air past the piston rings which dilutes the mixture.
You use less lubricating oil.
You use less gasoline.
You drive slower on high gear.
You take hills with perfect ease and grace.
You attain greater speed on level.
You eliminate the over-heating.
You stop fouling your plugs.

Our Price is Reasonable.

Bring in your motor and let us fix it up.

NOTICE TO NON RESIDENTS

The State of Indiana, Rush County. In the Rush Circuit Court, September Term, 1918.

Owen L. Carr, Bruce Carr vs. The Automotive Corporation, A. H. Wyatt, whose christian name is unknown, William Hulin. Complaint No. 1630.

Now comes the plaintiff, by Geo. B. Moore, attorney, and files amended complaint herein together with an affidavit that said defendants, The Automotive Corporation, A. H. Wyatt and William Hulin are not residents of the State of Indiana, that said action is for attachment, and that said non-resident defendants are not parties thereto.

Notice is therefore hereby given said defendants, last named, that unless they be and appear on the 25th day of November, 1918, in the Rush Circuit Court, at the Court House in Rushville, in said county, and state and answer or demur to said complaint, the same will be heard and determined in their absence.

Witness my name and the seal of said court, affixed at Rushville, Indiana, this 3d day of October, A. D. 1918.

COMMUNITY ACTION

MAY SUPPLY FUEL WOOD

Urge That Wood Cutting by Farmers Should Be Begun Before Winter Is Here

GROUPS MUST CO-OPERATE

Washington, Oct. 12.—Communities threatened with serious fuel shortage should not wait until winter but should act now to stimulate the cutting of wood by farmers, say officials of the forest service, United States department of Agriculture.

It is believed that farmers in many sections will cut all the wood needed for the community if they are guaranteed a minimum price sufficient to allow a fair profit. Such contracts should be made as early as possible so that the wood may be properly seasoned.

Because few farmers get out enough wood required a stove wood and consisting of saw and power splitter as part of their equipment it is suggested that a group of farmers co-operate in operating such a plant.

The coal mines of Spitzbergen are expected to reach a production of 30,000 metric tons a month by next spring and 100,000 metric tons monthly by 1929.

entertained Sunday, Mr. and Mrs. Floyd Miles and family of Charlottesville, Mr. and Mrs. Luther Gibson and family and David Gibson.

Mr. and Mrs. John Clark and family of Indianapolis came Thursday for a few days visit with Mr. and Mrs. Hezikiah Clark and Miss Mattie Clark.

Mr. and Mrs. Hezikiah Clark, Miss Mattie Clark and Mr. and Mrs. John Clark and family of Indianapolis visited Dr. and Mrs. Jed Clark and family of Connersville, Friday.

Mr. and Mrs. H. J. Catt visited Eli Catt and family at Westland Wednesday afternoon.

Mrs. Harry Nelson visited her son Davis, who is in a military training school in Indianapolis, Wednesday. He is ill with the influenza.

Carl Alexander returned to Alesster, South Dakota, Monday, after a visit with his father, Thomas Alexander.

HIGHWAY COUNCIL CAN APPROVE WORK

No Permits For Improvements Necessary When This Body Speaks It

OVER 6,000 APPLICATIONS

Council Does Not Exercise Jurisdiction Over Any Sidewalk Construction

Washington, Oct. 11.—A circular recently issued by the War Industries Board calls attention to the fact that no permits or licenses will be required by the Board for public

THE strong and vigorous man or woman is envied by less fortunate humanity afflicted with aches, pains, infirmities and ailments. The sufferer says to himself, "If I could only be well, how happy I would be," for health is more essential to the joy of living than is wealth.

The kidneys almost literally wash the blood and keep it clean and free from impurities. When the kidneys are out of order, they fail to filter out this waste and poisonous matter. It remains in the system to cause backache, rheumatic pain, sore muscles and stiff joints.

Foley Kidney Pills

help the system eliminate this poisonous waste. They soothe, strengthen and heal sore, weak and diseased kidneys and bladder. When the kidneys are working properly, appetite returns, refreshing sleep is possible, and health and strength come again.

C. W. Smith, 1205 No. 4th St., Solina, Kan., writes: "I am very much pleased with Foley Kidney Pills. I am working in a coal yard and have been very much troubled with my back. I have taken several doses of Foley Kidney Pills and they have already helped me."

F. B. JOHNSON

highway improvements and state pavements when expressly approved in writing by the United States Highway Council. The highway council calls this statement to the attention of state, county and city officials, some of whom have shown confusion as to what Federal approval is necessary for this class of construction work.

More than 6,000 applications for approval of highway projects have been received by the council. The United States Employment Service is now represented in the membership of the council. The other federal agencies represented are the war department, railroad administration, fuel administration, war industries board, and bureau of public roads of the U. S. department of agriculture.

Programs of work in construction of streets and highways for 1919, being made up under the supervision of state highway departments are to be submitted to the council on or before December 10, 1918.

In response to queries from local officials the highways council recently has made the following rulings:

The council does not exercise jurisdiction over sidewalk construction.

Construction work, whether it costs more or less than \$2,500, should be submitted if it involves any of the materials under the control of the war industries board or the fuel administration. When materials are already on hand or are locally available, application for federal approval need not be made.

TRY A WANT AD

LOAN DEMONSTRATION IS HELD IN NEW YORK

President Wilson and Heroes of All Nations Engaged in War Participate in It

CAPTURED ORDNANCE SHOWN

(By United Press.)

New York, Oct. 12.—President Wilson, heroes of all nations engaged in whipping Germany, modern ordnance from the factories of the United States and ordnance captured from fleeing German troops combined today to boost the Liberty loan in New York. They helped by engaging in a great parade down Fifth Avenue with the president marching in the middle of the parade. Following President Wilson were American soldiers.

The crowd was given some excitement as the parade passed 51st street. H. J. Boone rushed toward the president and was snatched back by a policeman. The crowd started a demonstration and attempted to get the prisoner, but the policemen beat them off.

Boone later said he was an Englishman, naturalized in this country, and merely wanted to shake hands with the president. He was not armed. He was held for investigation.

FIGURES WILL BE AVAILABLE MONDAY

Continued from Page One
the government's war program. Chairman Ross has conducted his

We Know It Is Hard

To get the Christmas spirit so early, but rather than disappoint the boys in France, we now have on display our beautiful line of personal greeting cards and

October 31st

is the final date for mailing cards to the soldiers. Just a little more than a month and by the time that your order has been filled, it will really hurry you to get them mailed.

Embossed and Engraved

Yes, all the samples are embossed in colors and engraved. Your name engraved adds the personal touch. Send the boys over there a message on Christmas day—it will enlighten them. People who bought cards last year must bring their plates. This is going to be a card Christmas because it is cheaper and answers the purpose of an expensive gift. Presents will not be sent to soldiers this year because the government needs the ships to carry soldiers instead of heavy mail.

Ten Per Cent Discount Now on Orders

The Daily Republican

campaign with a degree of thoroughness that makes the financial slacker very conspicuous.

Louis Wolf, sales chairman of Wabash county reported subscriptions for \$1,336,100 against an al-

lotment of \$1,275,000. These subscriptions were returned through a clearing house and then distributed among the banks the chairman taking a receipt, which will guarantee the full amount of the subscription going into the federal reserve bank, and allowing no chance for the usual shrinkage. The county will continue taking subscriptions through local banks met with the hearty approval of the state sales committee.

Bartholomew county, which raised 11 per cent of her quota of \$900,000 entirely by voluntary subscriptions, has caused to be printed and distributed a pamphlet telling how the trick was turned. It suggests the value of the voluntary plan and its effectiveness where properly applied.

County chairman who were supplied with loan buttons to the number of 100 per cent more than the total of subscriptions to the third loan are asked to hold the unused buttons, which will be returned to the manufacturer for further use. The serious shortage of material used in making the buttons has been pointed out in a special bulletin and it is expected the salvage will be sufficient to pay for a number of bonds of high denomination.

Holders of first and second issues of Liberty loan bonds are receiving a final notice that these bonds will not be convertible after November 9th. Bonds delivered to banks for conversion before that date will bear interest at the rate of 4 1/2 per cent from June 15th, 1918. Bonds made the exchange without cost to the bond owner.

INFLUENZA ON DECREASE

Fewer Cases In Army Camps are Reported by Surgeon General

Washington, Oct. 12.—The epidemic of Spanish influenza appears to be partly in the decline in army camps, according to a statement from the United States surgeon-general's office today.

Twelve thousand and twenty-four new cases were reported in the last 24 hours, a decrease of 297 cases over the preceding day. The total number of cases reported from all camps since the malady made its first appearance is 223,140.

TWO PREMIERS RESIGN

Copenhagen, Oct. 12.—Baron Von Hussen, the Austrian premier, and Dr. Wackerle, the Hungarian premier, have resigned, according to a Vienna dispatch today.

UP AND ABOUT AGAIN.

"I was sick in bed with kidney trouble," writes C. F. Reynolds, Elmira, N. Y., "and my back ached so severely I could not get up." I commenced taking Foley Kidney Pills and in a few days was out of bed. Keeping up the treatment, I was able to go to work. Since then I have had no more backaches and no other trouble with my kidneys." Foley Kidney Pills stop sleep disturbing back aches and relieve rheumatism. The pills were immediately swallowed.

CONFUSION OVER LETTERS

Responsible For Statements Credited to Wilbur Snodgrass

A story published in the Republican recently, which purported to be based on a letter written from France by Wilbur Snodgrass to his parents, Mr. and Mrs. L. C. Snodgrass, was evidently confused with another soldier's letter because it contained statements which were not made by Private Snodgrass. The only explanation for the mistake, which was seen by Mr. and Mrs. Snodgrass because they were familiar with the contents of their son's letter, is that confusion arose between it and another letter from France.

TELLS HOW TO GET BACK OLD TIME AMBITION

Discoverer instructs druggists everywhere not to take a cent of anyone's money unless Bio-feron doubles energy, vigor and nerve force in two weeks.

7 A DAY FOR 7 DAYS

Any man or woman who finds that they are going backward, are not as strong as they used to be, have lost confidence in their ability to accomplish things, are nervous and run down should take two Bio-feron tablets after each meal and one at bedtime.

Seven a day for seven days. Then take one after each meal until the supply is exhausted. Then if your nervousness is not gone, if you do not feel twice as strong and energetic as before, if your sluggish disposition has not been changed to a vigorous active one, take back the empty package and your money will be returned without comment.

No matter what excesses, worry, overwork, too much tobacco or alcohol have weakened your body and wrecked your nerves, any druggist anywhere is authorized to refund your money on request. Bio-feron, the mighty builder of blood, muscle and brain does not do just what is claimed for it.

Note to Physicians: There is no secret about the formula of Bio-feron. It is printed on every package. Here it is: Leithinger's Calcium Glycero-phosphate; Iron Pyrophosphate; Manganese Pyrophosphate; Zinc Valerianate; Potassium Phosphophosphate; Glucosamine Caproate; Kola.

Bio-feron

Keeps Teeth Clean and Gums Healthy

Specially Indicated for treatment of Soft, Spongy and Bleeding Gums.

All Druggists and Toilet Caskets.

The "All-Highest" Now Sees The Beginning of the End

The most cheerful word Wilhelm seems to have for his people just now is his "confident hope" that "in these most serious times" they will "resolutely gather around me and give their blood and wealth until the last breath"—much like the late Czar's defiant proclamation that he would fight to his "last muzhik"—and some think that when the German people "gather around" as requested, a fate such as befell the one ruler may await the other.

"It is the beginning of the end," declares the Prime Minister of Great Britain, with whom the press in all allied lands agrees, tho mindful that it is not the end—only the beginning thereof. And we are admonished on all sides that altho "we have passed over the crest and are now going down hill," we should in no sense slacken our war efforts. All Pershing has promised, the Atlanta Journal points out, is: "Send us men, guns, and supplies quickly and we'll win in 1919." The news of victory must make us "speed up, not slacken," continues this journal, for "all hopes of crushing the enemy by the beginning of 1920 are based upon gigantic performances by the United States."

Do not miss reading THE LITERARY DIGEST this week—October 12th. The leading article which is graphically illustrated with maps and half-tone reproductions covers the war situation for the past seven days from every angle. Other news-stories of timely interest in this number of "The Digest" are:

- Shall the Peace League Include Germany?
- European and American Newspaper Comment on President Wilson's Speech Endorsing A League of Nations After the War is Won

The Digest is on the "Movie" Screen!

From Maine to California in many of the high-class motion picture theaters millions of men and women are being joyously entertained by The Literary Digest's "TOPICS OF THE DAY" feature. This consists of a series of "punch" editorial utterances—patriotic, humorous, and thrilling—selected by THE LITERARY DIGEST from the newspaper press of the world. "The Digest" is the first great news-magazine to introduce this novelty and it is meeting with the widest popularity. If you have not yet seen THE LITERARY DIGEST'S "TOPICS OF THE DAY" feature at your favorite "movie" theater, you should write to the manager about it.
